It can be given on the basis of academic merit, athletic ability, financial need or other criteria specific to the group giving the award. Educational grants and scholarships are the best kind of financial aid, for one simple reason: it's free money. The African-American Affairs Commission has compiled information to assist you with scholarship resources. # COLLEGE GOAL SUNDAY

[www.collegegoalsundayct.org](http://www.collegegoalsundayct.org)

For students who are the first in their family to attend college, the process of applying for college can seem complicated, especially finding financial resources and applying for aid to make the dream of attending college a reality. Participating in College Goal Sunday gives students and their families a great first step on the pathway to college. It gives students an opportunity to learn about preparing for college and financial aid in a comfortable setting.

In Connecticut, the state with the largest educational achievement gap, it is very important that barriers that discourage African-American students and other first generation students to go to college be removed. College Goal Sunday provides students and their care providers with expert service and attention in completing the FAFSA, the most important form needed to secure financial aid for college.

College Goal Sunday is funded and sponsored by the Lumina Foundation for Education, YMCA USA, the CT Association of Professional Financial Aid Administrators (CAPFAA) and the CT Association of Educational Opportunity Programs (CAEOP). College Goal Sunday is a valuable opportunity to get tips on planning for college and personal advice on ways to make attending college more affordable. Students and parents are encouraged to take advantage of this event. For more information, contact the African-American Affairs Commission at 860-240-8555 or visit College Goal Sunday at [www.collegegoalsundayct.org](http://www.collegegoalsundayct.org).

Studies from the U.S. Department of Education show that 8 out of 10 students expect to earn a college degree or higher, but few students understand what they need to do to be fully prepared for college.
